Arturo,

Great talking with you on the phone. Here is a link to the NASA DC-8 Instrument Payload:

<https://espo.nasa.gov/home/atom/instruments>

Early next week (likely Monday afternoon or Tuesday morning), I will share the proposed flight plan for the NASA DC-8 for Thursday September 14th. Unfortunately, we will only have 2-3 hours to sample the atmosphere in Southeastern Texas.

Please feel free to contact me with any questions.

Best regards. Barry
